

Score Sheet Review Process

In an effort to address any scoring questions/issues prior to the session being completed, we have come up with the following process.

- I. Entire Score Sheets will be made available 20 minutes after the last team in your division performs.
 - a. You will be able to pick them up at Score Sheet Review which will be located right next to the tally room, which will be in the hall way right outside the gym.
- II. Along with your score sheets, you will receive a Score Sheet Review Request Form. Should you have any questions regarding difficulty scores and/or Safety/Deductions, you can complete the form and return the form as well as your score sheets to Score Sheet Review staff member for it to be reviewed.
- III. It will then be reviewed by the judges as the session is taking place.
- IV. Once the judges review the request form, they will either make appropriate scoring changes or not but they will inform you of the decision via the request form.
- V. When the review has been completed, your score sheets and review form will be returned to the Score Sheet Review table for pick up.
- VI. After this process has been completed, should you have additional follow up questions, they will be addressed in the same format.
